

## Hexyl CARBITOL Solvent

Diethylene Glycol Monohexyl Ether

### Provides greater solubility with water, provides good flow and leveling

#### Introduction

Hexyl CARBITOL™ Solvent, like Hexyl CELLOSOLVE™ Solvent, displays a strong hydrocarbontype solvency. The increased ether functionality of Hexyl CARBITOL Solvent provides greater solubility with water than Hexyl CELLOSOLVE Solvent.

Hexyl CARBITOL Solvent is a slow evaporating solvent that partitions primarily into the polymer phase of a waterborne coating and reduces minimum filming temperature. It can be used with associative thickeners to enhance application properties such as brushability or roll application in high performance coatings.

Its slow evaporation and excellent solvency characteristics contribute good flow and leveling to high solids coatings during the drying/ curing cycle. This allows uniform diffusion of the solvent through the film and maximizes appearance and film properties by reducing the occurrence of defects due to solvent-pop and air entrapment.

## Suggested Applications

- Coalescing aid in waterborne emulsion or dispersion coatings
- Cleaners for removal of greasy soils
- Metal deco inks

## Features

- Strong hydrocarbon-type solvency
- Slow evaporation rate
- Promotes uniform diffusion, eliminates solvent-pop and air entrapment

NOTE: Consult the appropriate Material Safety Data Sheet for safety and handling guidelines for this product.

## Product Stewardship

The Dow Chemical Company has a fundamental concern for all who make, distribute, and use our family of glycol ether products, and the environment we share. This concern is the basis for our Product Stewardship philosophy, by which we assess all available information on our products and then take appropriate steps to protect employee and public health and the environment. In addition, Dow is committed to implementing the guiding principles and management practices of the chemical industry's Responsible Care† initiative, which includes Product Stewardship as one of the Management Practices. As part of our Product Stewardship effort, information such as Material Safety Data Sheets and literature on DOW glycol ethers are provided to assist customers in handling our glycol ether products in a safe and responsible manner.
